

The New Prophetic Generation: A Biblical Approach to Mentorship and Spiritual Maturity

For many years, the gift of prophecy has been doubted, even considered a hoax. The New Prophetic Generation enlightens its readers concerning the original intention of prophecy, using the Old and New Testaments to demonstrate that there is a prophetic gene and family. These revelations will not contest denominational experiences and relevance of one's congregational life. The goal is to simply teach the necessity of prophecy today from a universal and historical perspective. A compilation of intensive research, coupled with tedious amounts of prayer and fasting, this approach will instill in Christian leaders the knowledge to properly assess prophecy within their ministries, while educating the Christian prophet on the importance of accountability and community. Prepare to be inspired to seek out your prophetic purpose, parent, and place of development.

What is Biblical Mentoring? By David P. Craig LifeCoach4God The program offers a solid grounding in Bible, doctrine, and the practices of serve the Church, gifts for ministry, Christian experience, and spiritual maturity. .
